DETAILED ACTION

CANCELLATION OF CLAIMS

****** The cancellations of claims 1-6 has been made of record.

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:

The prior art does not show the following:

a u-shaped operating arm, between whose u-legs the gripping arm of the swivel-mounted lever/pull handle can be sniveled (claim 7);

the swivel-mounted lever/pull handle has a groove into which the spring tongue grips (claim 9); and

a lever/pull handle supported on the circuit board at a rotation bearing for swivel movement of the lever/pull handle, the lever/pull handle including an elongated gripper arm having a free end, a swivel bearing between the free end of the griper arm and the rotation bearing and the control lever including an operating arm extending in one direction adjacent to the gripper arm and between the gripper arm and the circuit board (claim 10).

The above respective structure is not shown in combination with all the other elements of the respective independent claims and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
